

Good afternoon CBGS families!

Time is flying by as we are nearing the end of our fall field studies season and the first quarter! Here are a few upcoming events and reminders:

- Next Tuesday, 10/10, all CBGS students will be participating in a Zoom meeting at 9am with [Dr. Enric Sala](#), the author of our summer book, [The Nature of Nature](#).
- The 1st quarter ends on Thursday, 10/19. Please remember that you can check grades at any time on [Schoolology](#) with your parent/guardian login.
- Our region has seen an increase in Covid cases the last few weeks. The Virginia Department of Health and the CDC still recommend a 5-day period of isolation when testing positive for Covid ([see here for guidelines](#)). If your child tests positive, please reach out to his/her teachers and they will make whatever accommodations they can during the period of isolation.

*Glenns juniors enjoyed a sunny day with Captain Dave collecting Coan River creatures.*

*Bowling Green sophomores got a lesson on ecological succession on top of Bearfence Mountain.*

*Warsaw juniors paddling fiercely through the marsh on the Eastern Shore.*
