

## **CBGS Science Symposium: Car Driving Directions to VCU**

The 2024 CBGS Science Symposium will be held at the VCU Student Commons at 907 Floyd Ave, Richmond, VA 23284. Directions and map are below. Please note that many streets are one-way as indicated by the arrows on the map. Allow plenty of time for parking and walking.

### **Directions from I-64 Westbound:**

1. Take 64 West to 95 North. Do not merge into traffic; stay in right lane and exit on 76A.
2. Go to the top of the ramp staying in left lane. Turn left at the light onto Chamberlayne Pkwy and cross over 95/64.
3. Take next right onto St Peter St. Take next right onto W Leigh St and get in left lane.
4. Go to stop light and turn left onto Belvidere St. Belvidere St is also Route 301 and Route 1.
5. Follow Belvidere St for about 0.7 miles (you will cross over Broad St). Get in right lane.
6. You will pass Monroe Park on your right then turn right onto Main St at the far end of the park.
7. Turn right onto W Main St (also VA 147).
8. Park in the West Main Street Deck on your left for a fee, or you may also find street parking. There should be plenty of street parking available but be careful as some of the parking zones have time limits that are treated very seriously by the VCU Parking and Transportation Services. Long-term street parking may also be worth trying on Cary St, for example, and adjacent streets as marked on the map.
9. Attendees should use the Floyd Ave Entrance to the VCU Student Commons.

### **Directions from I-95 Southbound:**

1. Take exit 76B. Turn left onto W Leigh St then an immediate right onto Belvidere St. Now proceed with step #6 above.
