

Good afternoon CBGS families and collaborators!

After months of researching topics, collecting and analyzing data, summarizing and documenting findings, and refining a presentation for public display, our seniors showcased their talents last Saturday at the CBGS 21st Annual Science Symposium. We want to thank all of the parents, teachers, counselors, research partners, and other supporters that helped each student reach this remarkable milestone!

3rd Quarter

The end of the 3rd quarter is quickly approaching next Friday, March 15th. Stay up to date on your student's progress by tracking grades on [Schoolology](#).

Spring Break

CBGS will be closed for spring break March 29th - April 7th.

Senior Night

Our Senior Night Ceremony will be Monday, May 6th at 7pm at Rappahannock High School. This year we are excited to welcome the former Secretary of Education and First Lady of Virginia, [Anne Holton](#), as our guest speaker. Mrs. Holton is currently a Professor of Public Policy and Education at George Mason University and a Senior Fellow for EdPolicyForward. She is the daughter of former Governor A. Linwood Holton and the wife of Senator Tim Kaine.

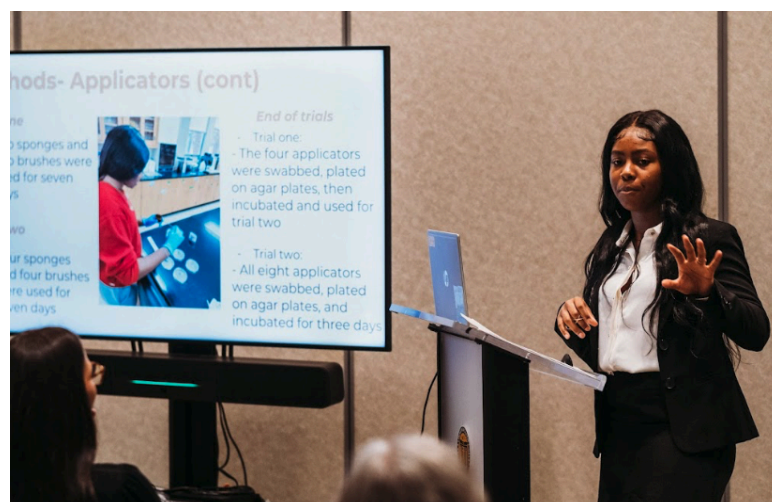

Congratulations to our students receiving special recognition for exemplary research.

Essex senior William Ochoa presents on Using Food Waste to Produce Biogas.

Mathews Senior Libbie Hospodar discussing Autochthonous Alternatives to Tropical Coconut Coir for Shoreline Engineering.

Lancaster senior Jenaya Cox examines The Effect of Makeup Brush Cleaner on Bacteria.
